

The Oxipack Stationary Leak Tester XXXL is the solution for testing a wide range of large packaging up to 25 Kg.

You can use the SLT XXXL for different types of products and packages. For example, it can be used for milk powder packages, but also for large pet food bags or for testing whether outer packaging is leak-tight to ensure a sterile environment. Through the use of two rubber membranes it is possible to create a deep vacuum in the test chamber without damaging the packaging, while creating a very small measuring space. Without changing any settings, the SLT XXXL can test for both micro and larger leaks. Identical and differen packaging can be tested together without changing any settings.

The SLT XXXL measures according the non-destructive detection of leaks in packages by vacuum decay method (ASTM F2338).

## **Features**

- Non-destructive
- Accurate
- · Easy to operate
- · Direct result
- · Robust design

Dimensions and Weight: 1014 x 1407 x 1165mm (lxwxh) 125KG

Materials: Stainless steel, Anodised aluminium, Polycarbonate, Rubber

Power supply: 100 - 230V 50/60HZ

Air supply: 5,5 - 8 ban

Compliance and IP rating: CE IP20

Size measuring chamber: 800x1000x300 mm (lxwxh)

Leak detection method: ASTM F2338

Minimum leakage: > 5,4 cm3/min

Maximum testing capacity: 1 P/M

**Connections**: USB/Ethernet export 24VDC logic (free programmable)

Packaging type and size: MAP up to 800 x 100 x 300mm (lxwxh)

**Options**: IOT Data, Barcode scanner, Printer, Line Numbers
